The Power of Corporate Communication

Reputation management is the most important theme in public relations and corporate communication today. John Doorley and Helio Fred Garcia argue that most CEOs don't actually pay much heed to reputation and this is to their peril. This book is a how-to guide for professionals and students in public relations and corporate communication, as well as for CEOs and other leaders. It rests on the premise that reputation can be measured, monitored, and managed. Organized by corporate communication units (media relations, employee communication, government relations, and investor relations, for example), the book provides a field-tested guide to corporate reputation problems such as leaked memos, unfair treatment by the press, and negative rumors — and it is this rare book that focuses on practical solutions. Each chapter is fleshed out with real-world experience by the authors and their contributors who come from a wide range of professional corporate communication backgrounds. This new edition features new and updated examples throughout, two new chapters on social media and public relations consulting, a new textbook feature in each chapter relating key communication theories to the practice of public relations and corporate communication, expanded coverage of global issues, and a new Companion Website at www.routledge.com/textbooks/doorley, featuring lecture materials for instructors and extensive learning resources for students and professionals.

This book examines managerial communication from seminal theoretical and demonstrative vantage points through interdisciplinary amalgamation of sciences and the liberal arts. It presents new paradigms of managerial communication in the form of manoeuvres that can act as game changers in encounters, conflicts and interpersonal dissonance that characterise the day-to-day corporate workplace tenor. This volume: Develops persuasion strategies based on argumentation tactics derived, for example, from legal cross-examination. Employs Harvard Business School cases to demonstrate problem-solving skills, which will further serve as guide to writing business reports, plans and proposals. Positions business writing methods as taxonomical tenets that can help tackle complex business scenarios. Draws business diagnostic procedures from diverse fields such as Sherlock Holmes from popular culture, and Jared M. Diamond from ecology. This book will be a significant resource for business communication practitioners, especially corporate managers and leaders, sales and marketing professionals, and policymakers. This book provides an accessible framework for describing these forces and the specific communication challenges that they have thrown at the global corporation. The text reviews the evolution of society's response to the development of the modern corporation and the corporate communication practices that grew up in response to it, as well as examining the impact of globalization, the Web 2.0, and the networked enterprise on corporate communication relationships with key stakeholders such as customers, employees, shareholders, competitors. In examining these forces and how they are interwoven, the authors offer insights and strategies for deploying effective communication as a strategic business asset in today's global economy. Designed for the advanced student of corporate communication, the book contains updated guidelines for the management of investor relations, community relations and other corporate relationships in the age of social media. Specific recommendations for how to organize and execute effective communication for the contemporary practitioner working in the communication field are also provided. "Goodman and Hirsch's book is essential reading for corporate communications executives. Insightful and practical, it will help them become better counselors to their CEOs, better partners with their C-suite colleagues, and better leaders of their own organizations." Dick Martin, Executive Vice President, AT&T (retired); A lieutenant in the corporate communication issues and practices within the context of globalization, rapid technological change, and the networked organization, Goodman and Hirsch offer readers a compelling and necessary discussion of the forces influencing corporate communication, and they utilize a host of contemporary examples to do so. This book is a must-read for researchers and practitioners interested in business, corporate communication, corporate social responsibility (CSR), and environment society governance (ESG) on the global stage. Goodman and Hirsch encourage us all to think carefully about what effective corporate communication should look like in the 21st century." Stacey L. Connaughton, Associate Professor, Department of Communication, Purdue University "In today's global environment, there is no function within a major corporation more important than what is commonly called corporate communication. This new book, Corporate Communication: Strategic Adaptation for Global Practice, written by Goodman and Hirsch, supports that conclusion with comprehensive and convincing evidence. Large companies cannot succeed today without successfully managing relationships with their key constituencies in the context of what is desired by those constituencies. Previously, only the CEO him or herself has been in a position to view all of those audiences with a balanced view of what is ethical and correct behavior. The fully developed corporate communication function of today has evolved to work side by side with the CEO and Boards of Directors. The function not only influences what and how a company speaks, but also how it acts. The Goodman/Hirsch book makes that case more strongly than any text written in the past. It should be must reading for not only the professional communicator but for all CEOs and Boards of Directors to see the unique and priceless value the corporate communication function can bring to the corporate table today." James E. Murphy, Retired Chief Marketing and Communications Officer of AT&T; Chairman & CEO of M urphy & Co. "Goodman and Hirsch capture not only the theory and organization of corporate communication, but its true heart and soul, even as they show you how to ground this practice in a wholly changing and changing world." Raymond C. Jordan, Corporate Vice President Public Affairs & Corporate Communications, Johnson & Johnson
